

CURRICULUM VITAE
STEPHEN E. SILLIMAN

January, 2014

Dean's Office
School of Engineering and Applied Science
Gonzaga University
Spokane, Washington

Education:

1979 B.S.E. Civil Engineering, Princeton University (Magna Cum Laude)

1981 M.S. Hydrology, University of Arizona: Eugene Simpson, Advisor

1986 Ph.D. Hydrology, University of Arizona: Shlomo Neuman, Advisor

Professional Experience:

2012: Dean, School of Engineering and Applied Science, Gonzaga University, Spokane, Washington

2000: Professor of Civil Engineering and Geological Sciences, University of Notre Dame, Notre Dame, Indiana

2009 – present: Associate Chair, Department of Civil Engineering and Geological Sciences, University of Notre Dame

2008: Fellow of the Institute, Kellogg Institute for International Studies, University of Notre Dame.

2008 - 2013: Special Appointment to Graduate Faculty, Department of Engineering Education, Purdue University

2002- 2008: Associate Dean for Undergraduate Programs, College of Engineering, University of Notre Dame, Notre Dame, Indiana

1992: Associate Professor of Civil Engineering and Geological Sciences, University of Notre Dame, Notre Dame, Indiana

1990: Associate Professor of Civil Engineering, University of Notre Dame, Notre Dame, Indiana.

1986: Assistant Professor of Civil Engineering, University of Notre Dame, Notre Dame, Indiana

1984: Research Associate, Department of Hydrology and Water Resources, University of Arizona, Tucson, Arizona

1982: Research Assistant, Department of Hydrology and Water Resources, University of Arizona, Tucson, Arizona

1981: Hydrologist, U.S. Geological Survey, Reston, VA

Honors and Awards:

Keynote Speaker, Salinity in Municipal Water Supply Wells Serving Cotonou, Benin, West Africa, 9th Washington Hydrogeology Symposium, April 23-25, 2013, Tacoma, Washington

Silliman, S.E., Panelist (1 of 4), Corporate and Academic Social Responsibility: Engagement or Estrangement, SEG (Society of Exploration Geophysicists), Annual Meeting, November 4-9, 2012.

Darcy Lecturer, National Ground Water Research and Educational Foundation, NGWA, 2011 (presented lecture at ~60 locations, world-wide during 2011)

Nominated, University of Oklahoma, World Water Prize, 2009

Groundwater Project in Benin identified as Groundwater Research Project, UNESCO International Year of Planet Earth, 2008-2011 (independent funding developed through private foundation).

Faculty Fellow, Kellogg Institute for International Studies, 2008-present, UND

Faculty Fellow, Kaneb Center for Teaching and Learning, 2009-present, UND

Rodney F. Ganey, Ph.D., Faculty Community-Based Research Award, UND, 2007.

ASEE, Global Engineering and Engineering Technology Educator Award, International Division, 2006.

ASEE, Outstanding Teaching Award, Illinois-Indiana Section, 2006.

College of Engineering, UND, Outstanding Teacher of the Year, 2003, 1992.

Kaneb Teacher of the Year Award in Civil Engineering and Geological Sciences, UND, 2004, 1999.

Grenville Clark Award (2002) and Rev. Toohey Award for Social Justice (2004), UND.

Fulbright Grant for Research in Israel, 1997-98.

Abbreviated List of Professional Activities:

Darcy Lecture selection committee, 2012-present, currently chair

American Geophysical Union, Member, Groundwater Committee 1992-present, chair 2000-2002

Associate Editor, Water Resources Research, 1992-94, 1998-2002

Associate Editor, Ground Water, 1996 - 2002

Associate Editor, Hydrogeology, 2000 - 2003

Board of Associate Editors, Journal of Hydrology, 1997-2000

Recent Invited Presentations and Workshops (numerous contributed presentations)

- 2013, Keynote Speaker, Salinity in Municipal Water Supply Wells Serving Cotonou, Benin, West Africa, 9th Washington Hydrogeology Symposium, Tacoma, Washington, April, 2013.
- 2012, Panelist (1 of 4), Corporate and Academic Social Responsibility: Engagement or Estrangement, SEG Forum, SEG Annual Meeting, November, 2012.
- 2011, Darcy Lecture, The Darcy Lecture will be presented at approximately 60 locations world-wide during the calendar year 2011.
- 2011, AGU session entitled, “Model/Parameter Uncertainty in the Subsurface and Impacts on Risk and Decision Making”, Fall Meeting, December, 2011.
- 2010, “Field Research Opportunities, Benin, West Africa”, Andrews University, March, 2010.
- 2009, Invited Panelist on Energy and Sustainability (Individual Focus on Water Resources), Engineering Congress on Alternatives Energy Applications: Option or Necessity?, Kuwait City, Kuwait, October, 2009.
- 2009, “Groundwater projects in Benin, West Africa: Advances, challenges and student opportunities, Keynote Presentation (1 of 4), Water Technologies for Emerging Regions, University of Oklahoma Water Center, October, 2009.
- 2008, Invited Workshop Participant (with Benin partners), Workshop on Globalizing Engineering Education: Lessons Learned from African and USA Partnerships, Cape Town, South Africa, October, 2008.
- 2008, “Characterization of threats to groundwater: Rural and urban strategies in Benin, West Africa”, 33rd International Geological Congress (International Year of Planet Earth, Groundwater Session), Oslo, Norway, August, 2008.
- 2007, “Basics of Groundwater Hydrology and Wells”, EDGE-Outreach, Louisville, Kentucky, October, 2007.
- 2007, Plenary Talk, Conference on Engineers for Community Service, Ohio State University, April 14, 2007.
- 2007, “The Unsaturated Zone and Capillary Fringe Reconsidered: Natural and Induced Horizontal Flows Above the Water Table”, University of Nevada, Reno, March 2, 2007.
- 2006, “Groundwater Studies in Rural Benin, Africa”, El Dia del Aqua Day, Department of Hydrology and Water Resources, University of Arizona, March 2, 2006.
- 2004, “Water Resources in Developing Countries”, IAESTE-US conference, February, Baltimore, Maryland.
- 2004, “Water Resource Development in Benin, West Africa: Technical Cultural and Economic Challenges”, University of Buffalo, February, 2004
- 2004, “Classroom experiments using an interactive Audience Response System” , Computer Services Management Symposium, March, Santa Fe, NM.

Project Funding (approximately \$4.2M as project PI / co-PI):

- Co-Principal Investigator (with Diogo Bolster as lead), “Mixing and Reactions in Highly Heterogeneous Media - Can Nonlocal Models handle them?”, NSF, 2011-2014.
- Principal Investigator, “Benin Program: Proposed Field Efforts to Characterize and Manage Salt-Water Intrusion into the Godomey Well Field, Cotonou, Benin”, Private foundation funding, \$201,656, 2011-2014.
- Principal Investigator, “Foundational, Collaborative Research At the Intersection of Engineering and Economics Focused on Assessment of Evolving Risk Associated with Water Resource Development in Rural Africa”, FRSP Program, Notre Dame, \$98,127, 2011.
- Principal Investigator, “International Research on Student and Professional Reaction to Development Initiatives Related to Groundwater Resources: Taking Advantage of a Unique Opportunity”, Kellogg Institute, Notre Dame, \$9,500, 2011.
- Principal Investigator, “Funds for drilling wells in Mono Region, Benin, West Africa”, Private foundation funding, \$24,000, 2009 – 2011.
- Principal Investigator, “Groundwater protection and management in Benin, West Africa”, Private foundation funding, \$245,000, 2008-2011.
- Principal Investigator, Private support for research in Benin, \$95,000, 2006-2010.
- Principal Investigator, “International: Collaborative research in Benin: Opportunity for undergraduate engineering / geoscience students”, The National Science Foundation, \$33,400, 2005-2006
- Principal Investigator, “Benin Nitrate Project, 2005”, The West Foundation, \$30,000, 2005/6.
- Principal Investigator, Private support for research and education in Benin and Haiti, \$50,000, 2005/6.
- Principal Investigator, “The Impact of Physical Heterogeneity and Connectivity on LNAPL Entrapment and Dissolution”, The National Science Foundation, \$144,026, 2004-2008.
- Co-principal Investigator (primary author), HP-mobility grant, HP Corporation, \$90,000 in support and equipment, 2004-2005.
- Principal Investigator, “Benin Nitrate Project, 2004”, The West Foundation, \$40,000, 2004-2005.
- Principal Investigator, “An REU Site on Water Resources in Developing Countries”, National Science Foundation, \$189,600, 2002-2005
- Principal Investigator, “Groundwater Characterization in Central Benin using Element Analysis”, National Science Foundation, \$26,000, 2002-2006
- Collaborator, Environmental Molecular Science Institute, University of Notre Dame, National Science Foundation, \$5+ Million, 2002-2007.
- Principal Investigator, “Air Entry Barriers: Mechanism for Creating High-Permeability Pathways Above the Water Table”, National Science Foundation, \$100,000, 2001 - 2003.
- Principal Investigator, Private Support for Experiential Seminar in Haiti, ~\$32,000, 2001-present.

Co-Principal Investigator, Alcoa Foundation Education Funds (includes support for work in Benin and Chile), 1998 - present, ~\$100,000.

Principal Investigator, Contract with U.S. Geological Survey to perform transport experiments in anisotropic media, \$24,011, 9/10/99-9/10/00.

Principal Investigator, "Planning grant: Characterization of water flow in fractured crystalline rock, Benin", National Science Foundation, \$3,200, 10/15/99 - 10/14/00.

Principal Investigator, "An REU site in the Department of Civil Engineering and Geological Sciences at the University of Notre Dame", NSF, \$155,000, 1997-2001.

Principal Investigator, "Impact of Measurement Instrument and Conceptual Model on Analysis of Subsurface Heterogeneity", U.S. Department of Energy, \$389,804, 1995-1999.

Principal Investigator, "Investigation of the three-point scheme for assessment of groundwater field sites", U.S. Geological Survey, \$48,000, 1996-1998.

Principal Investigator, Fulbright Research Grant in Israel, \$30,000, 1997-1998.

Principal Investigator, "GAANNP research fellowships in CE/GEOS", U.S. Department of Education, \$350,000 (1994-1997).

Principal Investigator, "Hydrodynamic Controls on Particle Transport Through Heterogeneous Porous Media", U.S. Department of Energy, Supplemental Funds, \$69,000, 1994-1995.

Principal Investigator, "Hydrodynamic Controls on Particle Transport Through Heterogeneous Porous Media", U.S. Department of Energy, \$373,322, 1992-1995.

Principal Investigator, "St. Joseph Basin Commission Juday Creek Study for MACOG", St. Joseph River Basin Commission, \$11,200, 1992.

Principal Investigator, "Development of the Subsurface Equipment for Bioremediation of the Sandia Site", Argonne National Laboratory, \$60,000, 1991.

Principal Investigator, "Development of a Groundwater Handbook for Well-Head Protection", The City of Elkhart, \$10,000, 1991.

Principal Investigator, "Development of an Undergraduate Laboratory for the Hydrologic Sciences at Notre Dame", National Science Foundation, \$161,434, 1988-1991.

Principal Investigator, "Proposed investigation of environmental effect of application of oil field brine to Michigan roadways", KEDA, \$210,310, 1988-1991.

Co-Principal, "An NSF REU site in the Department of Civil Engineering at the University of Notre Dame", National Science Foundation, 1987/88/90/92/94.

Principal Investigator, "Characterization of fracture geometry utilizing particulate tracers and borehole temperature", U.S. Geological Survey, \$344,832, 1987-1990.

Principal Investigator, "Movement of Microorganisms through the subsurface: Numerical analysis of the threat of biological contamination to Indiana's groundwater", Indiana Water Resources Research Center, \$42,500, 1987.

Courses Taught [at Gonzaga (GU) or Notre Dame (no label) unless otherwise indicated]:

Freshman Seminar, Fall, 2013 (GU)

Senior Design, Fall, 2013 / Spring, 2014 (GU)

Uncertainty in Environmental Systems, new course, spring, 2010: to graduate students.

Groundwater Hydrology and Hydrology Lab: To Seniors and First Year Graduate Students (25 years of teaching this course).

Introduction to Engineering Systems: To Freshman (approximately 7 years of teaching this course).

Concepts in Civil Engineering: To Sophomores (multiple times)

Geostatistics: To Graduate Students (multiple times)

Probability Theory: To Graduate Students (multiple times)

Third-World Water Supply: To Undergraduates (multiple times)

Undergraduate Research: To Undergraduates.

Advanced Groundwater: To Graduate Students (multiple times)

Physical Geology: To Undergraduates (for 3 years)

Groundwater Modeling Course (in French) at the Universite d'Abomey-Calavi, Benin, 2006, 2013

Geostatistics (in French) at the Universite d'Abomey-Calavi, Benin, 2003, 2005

Groundwater Field Methods (in French) at the Universite d'Abomey-Calavi, Benin, 2009

Data Analysis using MATLAB (in French) at the Universite d'Abomey-Calavi, Benin, 2011

Graduate Students:

Completed Master's: Mr. Tim Carlsen, Mr. Peter Conwell, Ms. Pamela Crane, Ms. Andrea Dunn, Ms. Christyn Fertenbaugh, Ms. Clara Galbis-Reig, Ms. Kathleen Kovacs, Mr. Tim Ling, Ms. Gloria Mantz, Mr. Daniel McInnis, Mr. James Nelson, Mr. Yong Peng, Mr. Nicholas Petruzzi, Mr. Reed Robinson, Mr. Benjamin Roope, Ms. Karen Saavedra, Ms. Stephanie Storer

Completed Ph.D.'s: Dr. Erica Pirnie-Fisker (Consulting), Dr. Pamela Crane (Development NGO), Dr. Andrea Dunn (National Energy Laboratory), Dr. Bryce Cole (Walla Walla College), Dr. Li Zheng (Chinese Research Laboratory), Dr. Stephen Preston (co-advisor; U.S. Geological Survey), Ms. Carrie Rodak (Consulting)

Undergraduate Students:

Numerous undergraduate students involved in research and service opportunities at both Gonzaga University and the University of Notre Dame.
