

MATLAB

- Mathworks Documentation → great but overwhelming!
- Take a look at the mathworks "getting started" video (only 7 minutes)
 - then **START CODING** to double check your homework solutions!
- great series of short videos by Jim McLellan at Georgia Tech.
- if you prefer to read instead of watching videos take a look at the web tutorial provided by Kelly Black
 - or any of the "hundreds" of tutorial that you can get on line either through the mathworks web site or by using google
 - ↓
 - whatever works better for you !!
